PROFESSIONAL SUMMARY

Frontend-focused full-stack developer who builds responsive, API-driven web applications with React.js, Next.js, TypeScript and Tailwind CSS, backed by Python/Django REST services. Delivered production business modules during a 3-month software engineering internship, and built AI-powered projects using the Google Gemini API. Seeking a Frontend / Full-Stack Developer role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL
Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Responsive Design
Backend & APIs: Django, Django REST Framework, REST API Integration
AI Integration: Google Gemini API, Prompt Engineering
Tools: Git, GitHub

PROFESSIONAL EXPERIENCE

Software Engineer Intern | GGST Innovations Pvt. Ltd. Aug 2026 – Nov 2026
Hyderabad

- Built and maintained business application modules in **React.js, Next.js, TypeScript and Tailwind CSS**, working in a team codebase with Git/GitHub.
- Integrated **REST APIs** to fetch, display and update dynamic data, with proper loading, empty and error states for a reliable user experience.
- Developed a library of **reusable UI components** and responsive layouts, improving consistency and cutting repeated code across screens.
- Implemented **Redux** state management along with **search, filtering, sorting and pagination** for data-heavy views.
- Added client-side **form validation** and resolved UI and API bugs, improving application stability.

PROJECTS

AI-Powered Job Board GitHub
Python, Django, Django REST Framework, SQL, Google Gemini API, JavaScript

- Built a full-stack job portal in **Django** to manage job listings, candidates and applications.
- Designed **REST APIs** with Django REST Framework for data retrieval and application management.
- Integrated the **Google Gemini API** with prompt engineering to generate context-aware AI responses.
- Implemented SQL database operations and connected frontend components to backend services.

AI Code Assistant GitHub
React.js, TypeScript, Tailwind CSS, Google Gemini API

- Built an interactive AI code assistant in **React.js and TypeScript** that returns code suggestions from user prompts via the Gemini API.
- Implemented asynchronous API communication with loading and error handling for smooth response rendering.
- Created reusable React components and a responsive interface using **Tailwind CSS**.

EDUCATION

Guru Nanak Institutions Technical Campus, Hyderabad 2022 – 2026
B.Tech – Electronics and Communication Engineering **CGPA: 8.89 / 10**

CERTIFICATIONS

- Python Programming – IBM (2025)
- Junior Software Developer – PMKVY (2024)
